

## Inviting the Community

### Presentation Instructions

To prepare for the Classroom-Community event:

- Select a topic for your presentation
- Select a presentation format (poster, slides, brief role-play, demonstration, video clip, etc.)
- Work with your group to create the materials for your presentation
- Rehearse any parts of your presentation that will be live
- Prepare to present and/or explain at the Classroom-Community Event

As you work on your presentation, give special attention to:

- how your project will communicate about science,
- how it presents the relationship of faith to science, and
- how it takes its audience into account.

Your presentation is due \_\_\_\_\_. Please come prepared to present it to our guests.

## Inviting the Community
